Explanation of Important Points

(Please be sure to read the Contract Overview & Points of Attention.)
Please make sure to read this.

Contract Overview & Points of Attention Explanation

1. Framework and conditions of acceptance
(1) product framework
The product is designed to provide a long-term investment solution for individuals seeking to accumulate funds for retirement or other long-term goals. It is structured as a life insurance policy with a cash value component. The policy is issued by a licensed insurance company and is subject to the terms and conditions of the policy contract. The policy is designed to provide a death benefit to the policyholder's beneficiaries upon the policyholder's death. The cash value component of the policy is designed to grow over time and can be used for a variety of purposes, including paying for education, retirement, or other expenses. The policy is designed to provide a death benefit that is equal to the face amount of the policy plus the cash value of the policy at the time of death. The death benefit is payable to the policyholder's beneficiaries upon the policyholder's death. The cash value component of the policy is designed to grow over time and can be used for a variety of purposes, including paying for education, retirement, or other expenses. The policy is designed to provide a death benefit that is equal to the face amount of the policy plus the cash value of the policy at the time of death. The death benefit is payable to the policyholder's beneficiaries upon the policyholder's death.
